

At the heart of the research process

SAFE laboratory diets

Backed with 45 years experience, supplying leading life science research institutes throughout the world.

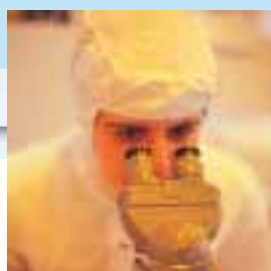

A unique production site, specifically dedicated to laboratory animal diets, free from any cross contaminations (SAFE do not produce farm or zoo diets).

- GLP&GMP compliant.
- Exclusive use of baby food cereals.
- Constant quality, consistent diets.
- 12 years data archiving.
- High quality custom made diets.
- Scientific support of the Evalis Group Research & Development Centre.
- Quick and reliable delivery.

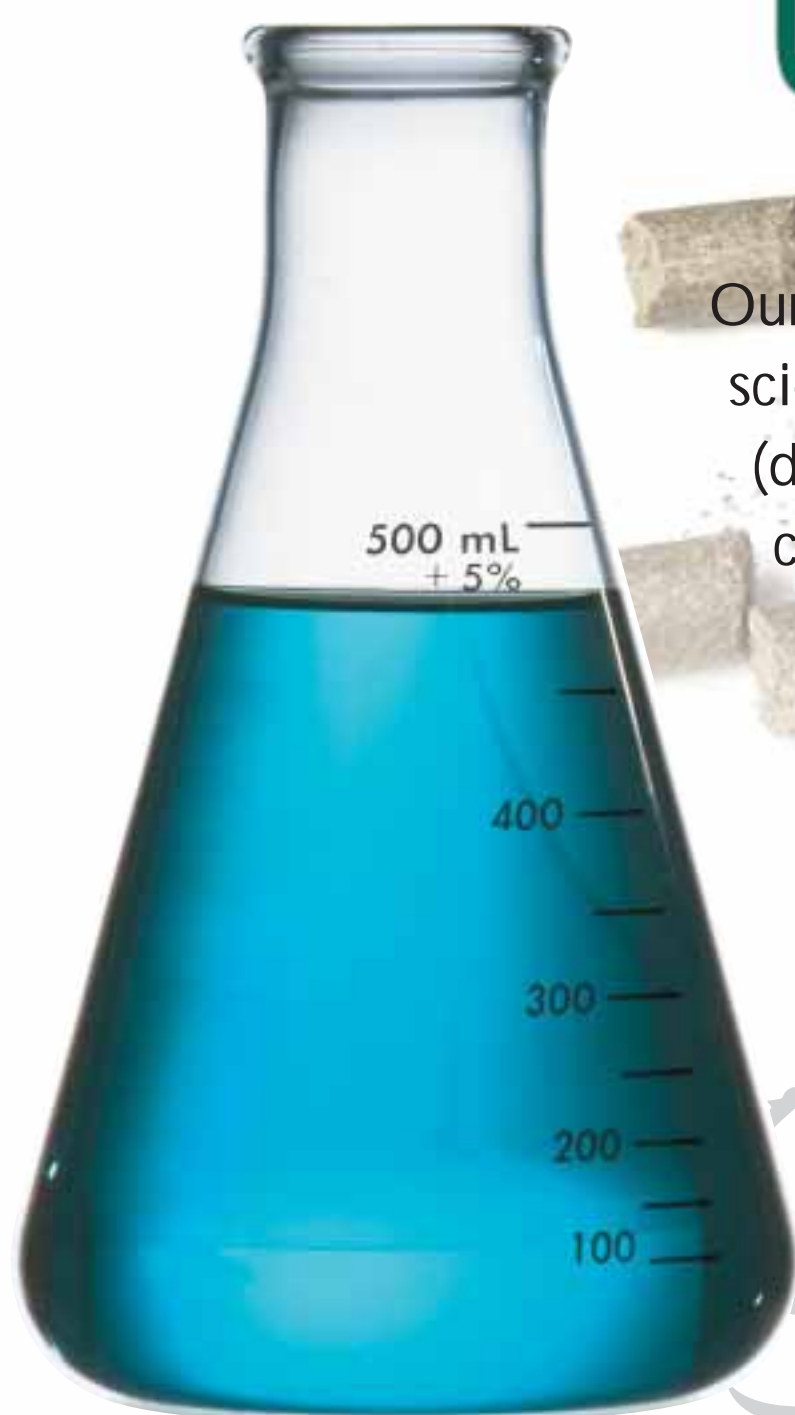

The **SAFE** team

SAFE, The solution for the secure development of your experiments with animals

www.safe-diets.com

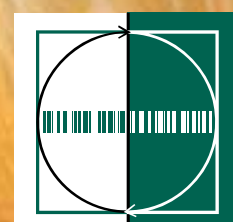

Our website is aimed at the whole international scientific community and presents our products (diets, custom diets, bedding, etc.) as well as our commitments in terms of production, food safety, traceability, etc.

Faced with the ever-increasing challenges of biomedical research, SAFE is an indisputable worldwide reference when it comes to ensuring the accuracy of your studies.

Browse the different sections and feel free to contact us via the contact page.
