THE ENRICHMENT
Stimulate the animal interactions with its environment for a better welfare and an optimized behavior.

Imagery for registration in the European Directive 2010/63 regarding the well-being of animals and their protection from abuse and development of animal products to research (EU Directive on Animal Welfare - Directive 609/86). These products are able to correct natural behavior and promote it to reach its peak, to learn to produce and fully to appreciate others and animal species. For the best results, appropriate or specific behavior is then induced. All the products are available in compressed packaging, compressed, vacuum sealed or loose, as request.

Please feel free to get in touch with us for any requests for samples: info@safe-diets.com
