Definition

Galet compressed in pure cellulose.

Product Objective

Provide a simple product, healthy and easy to manipulate to enrich the environment of the animal, in accordance with current regulations of lagomorphs (from 10 weeks) and rodents.

SAFE PLAY can request the instinct of the animal rodent and also play. It allows to combine attractiveness and practicality for the rabbit and for the animal technician. Easy to distribute and remove. It has the particularity to disintegrate in water.

This product helps to develop the exploration activity of the animal, and participates to the animal welfare. Enriching the medium, this natural galet reduces abnormal behaviors such as aggression or apathy.

SAFE PLAY is stable in temperature and humidity in a pet store.
